Launch Interactive Develops New Web Design for Virginia Beach Eye Center

(Virginia Beach, VA)- Virginia Beach Eye Center, a comprehensive eye care provider, has chosen Launch Interactive, a full-service interactive agency, to enhance their website for an engaging web experience.

Virginia Beach Eye Center's new website will help to further establish the company as the premier choice for safety and quality in laser vision correction.

"We have great experience and some of the best technology in the area," says Dr. Samuel Garrett, lead doctor of Virginia Beach Eye Center, which has served Hampton Roads with comprehensive and complete eye care for more than 19 years. "With a competitive set of practices in the area, we needed a website that helps prospective patients make a better decision on where to go for procedures."
